Investing in the stock market, even with low share prices today, is not the best way to secure your future, according to a financial expert who will speak Saturday.

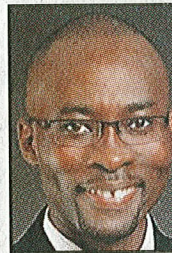

Samuel N. Asare, senior financial strategist for Laser Financial Group in Kensington, will present a free workshop at 1 p.m. Saturday at Exit Realty, 5300 Westview Drive, Suite 105.

"There is this erroneous idea that to make decent returns, people must be invested in the stock market," Asare said in an interview.

"I will specifically defuse that and show what I consider to be a sensible, reliable alternative."

Asare said he will talk about how his clients have managed to protect themselves against real estate and stock market downturns.

Other advice will include how to guarantee principal dol-

Samuel Asare

lars, prevent losses practically, lock-in all of the gains from year to year, accumulate, withdraw and transfer savings income tax free, and avoid taxes on up to 85 percent of Social Security benefits.

"These are based on an understanding of legitimate choices provided by existing federal tax laws, not loopholes," Asare said.
